FEB 1 6 1950

SUPPLEMENT TO
REPORT NO.

25X1X

1. The airfield, about 6,600-foot square, was about two miles east of RADOM (R 52/19), directly south of a main road to the east (see Annex).
2. There was an E-W runway, about 130x6,600 feet. Taxistrips to connect the hangars on the northern edge of the field with the runways were under construction.
3. Barracks buildings and workshops were in the northern section.
4. Polish pilots were being trained on single-engine and twin-engine aircraft by Soviet instructors. The planes had Polish nationality markings. Not more than 25 aircraft were stationed at the field.

25X1A

Comment:

The reported location of the airfield is correct. The runway was built by the Germans in the war, but the taxistrips leading to the runway were apparently constructed after the war. According to this report, a Polish pilot school was stationed at the field in 1946. This information was confirmed by the report of [REDACTED]. No information has been received on the present utilization of the field.
